Ms. Hammett,

You have posted an unredacted version of the April 26, 2022 summary judgment hearing transcript on your blog entitled "Judge Lee P. Rudofsky's Biased Opinion: Free Doc of the Day, Transcript of Hearing on MSJ" (available by link [here](#)).

As you are aware, Judge Rudofsky granted PRA's motion to redact (Dkt. No. 167) portions of the publicly-accessible version of this transcript on August 24, 2022. (Dkt. No. 192.) These redactions were ordered over your August 19, 2022 objections. (Dkt. No. 176.)

While we are unclear on when you procured the unredacted version of the transcript that you posted on your blog, the clerk's office has confirmed to us that Docket No. 157 is no longer accessible on PACER and that the Court-ordered redacted version of the transcript (Dkt. No. 193) is the only version of this transcript that is available to the public.

As you are disseminating material that the Court has ordered redacted (as contemplated in Paragraph 20 of the parties' stipulated protective order), please immediately remove the unredacted version of this transcript from your blog and replace it with the public version. For your convenience, we have attached a courtesy copy of the publicly-accessible transcript.

Please provide your written confirmation that you have removed this material from your website.

Regards,

Jed
