

IN The UNITED STATES District Court

Western District of Arkansas
Fayetteville Division

Coby Townsend Hurst Plaintiff

Civil NO. 5:21-cv-05029

Dr. Mark Rucker Mercy
Hospital Northwest Ark, Nurse

Daniel Burson et al. Defendants

Answer to Undisputed Facts and
~~motion for summary judgment~~

1. on #2 of undisputed facts - I was unable to do a grievance procedure because I was in hard cuffs and as I said "Don't out loud 10 times" their is no time to write a grievance as the nurse stuffed a tube in my penis.
2. on #9 of undisputed facts - The urine screen was not ordered at same time as the CT and other orders as I needed to pee when I arrived and was holding it for hours and during my CT and chest x ray

making it difficult to Restart without running water or toilet flushing, as the time is Lie and can be proven at 10:35 The #9 says The Doctor ordered The urine screen This is not true The Doctor didn't order the urine screen till after plaintiff got done with CT and X Ray at around 12:46 still is no excuse to shove a tube up my penis all they had to do was run the water in sink and give me 5min and I could of peed since I held it for Hour's it made it Hard to Restart.

3. #12 on undisputed facts - Daniel Burson did in fact shove a tube up my penis called a urethral catheter for NO MEDICAL Reason I was not going to die or was not in coma ect.

4. on #16 on undisputed facts - I don't know The Nurses on a daily Basis so I can't recognize them and was screaming no and looking at my penis as they shoved the tube in my penis
no or

5. Violation of my 4 amendment apphys
Because I am a US citizen

6. on page 9 of support of Motion
for summary judgment - The case
for The Tinius v. Carroll - County Sheriff
and Levine v. Roebuck are one is
for medical purposes and one is officer
direction to force catheter up the
inmate on my cause no
officer told The Mercy Hospital
to put a catheter up my penis
or get my pee for any tests
and I was not in medical need
of Relieve my Bladder to save
my life.

7. on #12 of undisputed facts - Daniel Burson
Did insert a urethral catheter
into Coby Hurst this is why the
Law suit is not frivolous as I Coby
Hurst was to be shoved up my penis
for no medical Reason other than
to get pee and they already took
my Blood they could of got info
from Blood also they could Ran
water and give me Smin to Pee
This is total proff they Did
D S R C

This with intent to abuse me,
Humiliate me and harm me as
all they had to do to get pee
sample was Run water in sink
and give me 5 min time which
they did not do.

8. There was no medical Reason
to get my Bladder empty
for to save my Life or stop
a Bladder Blow out or ect ect
abusively no Real Reason to
SHUVE a tube up my penis.
on Page 5 #14 This all was determined
By my Blood taken already and
I admitted I was on drugs also
so my Blood taken was a medical
thing to see what I was on
and I had already calmed Down
from a Drug given to me
in ambulance.

9. I include a Exhibit A page 59 of 61 pageID# 135
This states inserted catheter first
Attempt it also shows a Glasgow
coma scale I was not in a coma
for The Record and The nurse

Nachtigal Angie L RN has
put numbers on the coma
scale I was not in a coma
also says my speech was clear
noted my speech is stroked
now and not clear for the
Record and I did complain
I said no Don't do this 20
times at least and asked for
sink to be run water to help
start my pee.

All is true so Help me God
